

# Eliminate Low-Power RV A/C Starting Problems

## SoftStartRV™ High-Performance Soft Starter – The Smallest Model Anywhere – Fits Any Rooftop A/C

*Over 52% Smaller Than Anything Else on the Market!*

- Start two A/Cs\* on one 30-amp hookup
- Start one A/C with a small generator
- Start one A/C on a 15-amp house circuit
- Reduces power needed for A/C startup by up to 70%!
- No loud knocks or dimming lights when A/C starts
- Quiet comfort – all day and night

\* Requires one SoftStartRV unit per air conditioner.

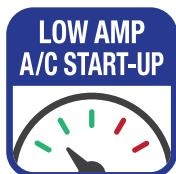

With SoftStartRV, experience **Freedom!**

Freedom to venture into national parks and remote campgrounds knowing you, your family and friends can stay cool.

Freedom to run two A/Cs on a 30-amp connection with two SoftStartRVs.

Never worry about a start-up power spike preventing you from using the A/C while you're boondocking, moochdocking or resort camping!

Worry-free RV A/C comfort at last!

More A/C with  
less power!

Quiet comfort day  
and night

Withstands wet  
conditions

Compatible  
with RVs  
worldwide

High quality  
guaranteed
